DESCRIPTION OF REQUIREMENTS

UNTSO intends to engage the services of a qualified consultant for the successful completion of a design project concerning improvement of buildings structure, and to upgrade and enhance the serviceability of the building for the daily procedures and occupancy purposes.

The requirement is for services of a Licensed Consulting Engineer to perform the following services as per the following LOTs. Each Lot consists of two sublots. Sublot 1 (Engineering Evaluation and Testing Works) and Sublot 2 (Design Works). The Client may award all the Lots together or individual lots (one of the buildings).

LOT 2 – Engineering Evaluation, Testing and Design Works for Building No. 7 – Sublot 1 (Part A), verify the structural integrity of the building by applying non-destructive testing and evaluation procedure. Sublot 2
(Part B), design and prepare a complete ‘Statement of Works’ document, priced bill of quantity, drawings and other related documents for building rehabilitation to strengthen UNTSO Headquarters Buildings.

It should be noted that sequence of award for the sublots is as below:
- Sublot 1 – Covering the Evaluation, testing and reporting of the status of the building, and
- Sublot 2 – Covering the design works. Awarding of the sublot 2 is dependent on the findings in the reports submitted under sublot 1 (if reviewed and an option to renovate is the most viable one); otherwise, the sublot 2 will not be awarded for those buildings that reports may indicate that the buildings are structurally not possible to be renovated (condemned buildings).
